

## WORKSHOP SERIES

## Decision Tree Model for Decision Making

The purpose of this workshop is to teach you how to make strategic decisions within the context of risk and uncertainty. Decision trees are used for making such decisions.

Participants will learn how to construct a decision tree to enhance decision quality.

### You will learn how to:

- Construct a decision tree
- Use probability to quantify uncertainties
- Obtain clarity so the decision can be made with confidence
- Improve the quality of the decision
